

BONA REMOVER

Bona Remover is a concentrated, liquid remover (stripper) designed to remove heavy dirt / food deposits and maintenance polishes from finished timber floors. The formulation is balanced to be tough on polish and dirt whilst gentle on wood to reduce the risk of stains. It will also remove scuff marks / black heel marks.

- Specifically designed for finished timber floors
- Effective cleans very dirty floors
- Removes scuff marks & black heel marks

Technical data

pH-value:	Concentrate approx. 12.5 Working solution: 11
Dilution:	1 litre to 5 litres of water (16,7%)
Safety:	Irritant
Shelf life:	At least 2 years, from the date of production, in unopened original container
Storage / transport:	Store frost free.
Pack size:	1 & 5 litre

Preparations

Remove dust/grit etc. with a dry cleaning method e.g. vacuum, scissor mop, etc.

Application

1. Dilute the product 1:5 with water.
2. Apply the diluted product thinly and evenly to a section of the floor and allow it time, approx. 5 minutes to dissolve the dirt / polish. Be moderate with the application if the floor has open gaps.
3. Scrub the wet section using a buffing machine or an autoscrubber equipped with a red pad. Remove all dissolved dirt / polish. This process may need to be repeated several times depending on how much polish / dirt is on the floor.
4. Continue section by section until the whole surface has been cleaned.
5. Clean the entire floor once more with clean water. It is important that all traces of Bona Remover are removed. This is particularly important if applying a new layer of Bona Freshen Up or polish.

Removal of scuff marks

Apply the diluted product to the scuff mark or the affected area. After a few minutes scrub with a gentle non-abrasive scouring pad (white or red pad) and wipe off.

Important notes

The information provided is prepared to the best of our current knowledge and makes no claim to be complete. The User is responsible for establishing that the product and recommendations herein are fit for the designated purpose, wood type and present situation before use. Bona can only guarantee the delivered product. A professional and thereby successful application of the product is beyond our control. If in doubt make a preliminary test. The User is required to read and understand all information contained on package labels and safety data sheets before using this product.
